Tupelo's second original CD "The Loneliest Ride"
was released recently on March 31, 2012!

The classic 70's California Country Rock sound...the Eagles, Jackson Browne, Linda Ronstadt...This is the sound of the Seattle-based band TUPELO!

Built upon a foundation of heartfelt songwriting, the Tupelo sound is drenched with lush three and four part harmony vocals, soaring guitars, soul-ful pedal steel, and honky-tonk piano. The male/female twin lead vocals create an "Everly Brothers"- like close harmony experience. All of these elements combine to create a unique and exciting sound that's been thrilling local Seattle audiences for the past few years.

TUPELO performs both all-original concerts as well as club-style dates which feature a combination of modern and classic Nashville hits along with Tupelo original music.
